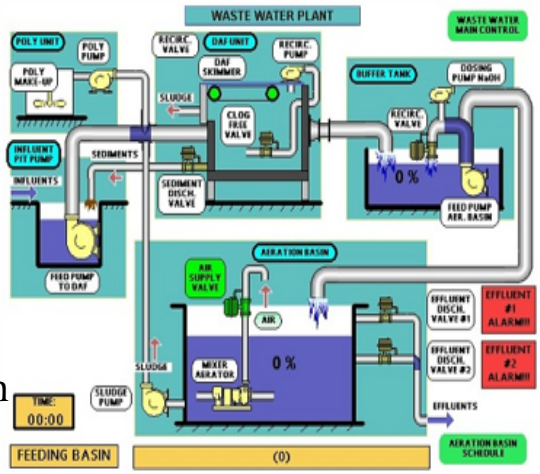
ANCO PROCESS CONTROL SYSTEMS

ANCO PLC with Touchscreen

ANCO's state of the art PLC based electrical control panels, designed for the specific application and to satisfy the end user requirements. Plant automation reduces the personnel needed to run the process, minimizes the errors, and makes it possible to perform complex controls to optimize the final product and cut energy costs.

ANCO-EAGLIN Inc. provides engineered solutions to meet the needs of any Process Control Systems requirements, and is one of the worlds leading companies for the manufacture of equipment for the rendering industry.



Features -

- Remote Access (including a tablet or a smartphone)
- Touch Screen Technology
- Each panel and field instrumentation is tested before being shipment
- Plant automation reduces required manpower
- Optimizes process to maximize throughput
- Eliminates human error for safer plant operation
- Several security levels can be implemented, allowing different operator privileges, to make the control more robust
- Events and alarms can also be sent in real time via e-mail or SMS.
